## **MULTIPLE VALID STANDARD ORC CERTIFICATES**

### **PROPOSAL**

To allow multiple standard ORC certificates valid at once for the same boat.

### **RATIONALE**

It is common to re-configure the boat for inshore and offshore racing use with different sails and crew weights, and yet there can be overlapping deadlines in the NOR's of these races. Having multiple valid certificates will allow for greater flexibility and compliance to NOR's without burdening the rating office to continually upload amended certificates.
