## **ALLOCATION OF REACHING SAILS**

### **PROPOSAL**

Revise the VPP to allow boats with a symmetric spinnaker set up as well as an asymmetric set up to have a level playing field regarding a reaching sail.

### **RATIONALE**

A boat with an asymmetric set-up (A2, A3, A4...) automatically get a free reaching sail (>85% SHW)  
The same sail set on a boat with a symmetric set-up is given a rating hike, even if the sail is smaller than the biggest S sail and >85% SHW.
